Professional summary

ABOUT

Aspiring Cost Estimator and Quantity Surveyor with entry-level proficiency in civil engineering and construction costing. My ambition is to help construction firms and project stakeholders deliver accurate budget assessments and optimize project resources by using my strong analytical skills and solid foundation in structural principles.

MY HIGHLIGHTS:

- Consistent Academic Excellence: Demonstrating a strong commitment to mastering my field as the Champion in October 2025 and 1st Runner-up in October 2024 at New Era University's Excellence Quiz Bee.
- Competitive Industry Engagement: Eager to learn and take on new challenges, evidenced by competing nationally in the ASEP 8th StructWhiz Challenge, the National Civil Engineering Quiz (NCEQ), and securing Rank 11 in the MIDAS Academic Festival Quiz Bee.

KEY STRENGTHS:

Thrilled about opportunities and challenges that allow me to use my proficiency with quantitative analysis and leverage my existing learnings in structural engineering and cost management.

OTHER INTERESTS:

- Detail-Oriented Problem Solver: Highly analytical, precise, and passionate about tackling complex mathematical and technical challenges.
- Collaborative Mindset: Team-oriented, adaptable, and eager to work alongside seasoned professionals to ensure project success.

Driven to apply the knowledge gained during my academic journey. Do you relate to my story, or want to know more about my background? I'd love to connect with you on LinkedIn! 📧 You can also reach me at arthurrealisanjr0311@gmail.com

Work experience

Cost Estimator - Intern (240 Hours)

Local Water Utilities Administration | Quezon City

January 2026 to March 2026

- Assisted in preparing comprehensive cost estimates and accurate quantity takeoffs for public water infrastructure and civil engineering projects.
- Reviewed structural and engineering plans to calculate precise material, labor, and equipment requirements in alignment with project standards.
- Collaborated with senior estimators and engineers to evaluate budget proposals, analyze market material rates, and streamline cost assessments.
- Conducted population projections and demographic analysis in Excel for Calatagan, Batangas to determine future water demand.

Education

Civil Engineering (Bachelor's)

New Era University | Quezon City

September 2022 to July 2026

Skills

Primavera

Bluebeam

Midas Gen

AutoCAD

Planswift

STAAD Software

Awards

High Distinction Rating – September 2026 Civil Engineers Licensure Examination

September 2026

- Scored 90.35% overall out of 17,062 national examinees, placing in the upper percentile nationwide and within 1.6% of the national Top 10 threshold.

Champion – New Era University Excellence Quiz Bee

October 2025

- Won 1st place in the university-wide academic quiz bee, demonstrating advanced technical knowledge, problem-solving speed, and mastery of core civil engineering principles.

Competitor – National Civil Engineering Quiz (NCEQ)

October 2025

Competed against top civil engineering students nationwide, applying comprehensive knowledge across various structural, mathematical, and construction disciplines.

Rank 11 – MIDAS Academic Festival Quiz Bee

October 2025

- Placed 11th nationwide in a specialized technical competition focusing on engineering analysis, structural design concepts, and advanced problem-solving.

Competitor – ASEP 8th StructWhiz Challenge

May 2025

- Represented New Era University in a prestigious national structural engineering competition organized by the Association of Structural Engineers of the Philippines (ASEP), tackling complex structural analysis and design problems.

1st Runner-Up – New Era University Excellence Quiz Bee

October 2024

- Secured 2nd place in the annual university competition, showcasing strong analytical skills and consistent academic excellence.

Certifications and licenses

PRC Registered Civil Engineer
